PROFESSIONAL SUMMARY

Data Scientist | Machine Learning Engineer with 2 years of experience across automotive retail, banking, insurance, and pricing domains. Skilled in data analysis, machine learning, statistical modeling, data engineering, BI dashboards, and Generative AI. Adept at transforming data into insights, building predictive models, and deploying end-to-end analytical solutions. Proven ability to collaborate cross-functionally, automate processes and support key business initiatives organizational growth.

CORE EXPERTISE

- Data Analysis and Predictive Analytics.
- Data Visualization (Python, SQL, Power BI, Tableau)
- Machine Learning (Classification, Regression, Clustering, CTGAN, Statistical Models)
- Model Deployment (MLOps).
- Data Cleaning, EDA & Feature Engineering
- Model Monitoring & Cross Validation
- Automation &Workflow Optimization
- Hyperparameter Tuning.
- Dashboard Design & Visualization(PowerBI, Tableau)
- Deep Learning.
- JIRA, Confluence, Documentation & Stakeholder Collaboration
- Critical and Analytical Thinking
- Natural Language processing.
- Time Series Forecasting,
- Production ML systems.
- TensorFlow / PyTorch.
- Docker & Git.
- ETL Pipelines, Data Modeling & Warehousing, Cloud (AWS, Azure)
- Statistical Modeling & Analysis, Quality Assurance.
- Data pipelines& Integration.
- Advanced Analytics& Machine Learning.
- KPI Reporting & Business Intelligence.
- Generative AI, Prompt Engineering, RAG Workflows
- XGBoost / LightGBM.
- A/B Testing.

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Advanced Excel.
Visualization Tools : Tableau, PowerBI, DAX Functions, Dashboards, Matplotlib.
Libraries & Frameworks: Pandas, NumPy, SciPy, Seaborn, Scikit-Learn, Stats models, Jupyter Notebook, Google Collaboratory.
Project Management: JIRA, Confluence.
Concepts: Exploratory Data Analysis, Statistics and Probability.
Machine learning Methods: Data Modeling, Clustering, Regression, Classification, Decision Trees, Dimensionality Reduction.

WORK EXPERIENCE

Tekion, Bangalore **Nov'2021–Sept'2023**

ASSOCIATE DATA ANALYST

- Onboarded dealers to ARC platform enabling seamless digital service experience.
- Enhanced ARC model performance by implementing advanced feature engineering and regularization techniques in Scikit-Learn, increasing prediction accuracy by 18%.
- Collaborated with Product, Migration, and Data Engineering teams to optimize workflows.
- Built BI dashboards to monitor KPIs and support business planning.
- Engineered an automated data validation pipeline using Python and SQL, reducing validation time by 96% (from 50 mins to 2 mins) and accelerating daily reporting cycles.
- Developed inventory automation reducing processing time by 8 hours per request.
- Developed KPI dashboards used by 20+ stakeholders to drive pricing decisions, reducing reporting time by 30%

ACADEMIC PROJECT

Generative AI for Test Data Synthesis **July'2025 – Jan'2026**

- Developed an end-to-end synthetic data generation platform using CTGAN to generate realistic, privacy-preserving tabular data.
- Built CTGAN-based synthetic data generation system handling 100K+ records, achieving 92% statistical similarity (KL divergence < 0.05) and 85% TSTR score
- Built modules for data ingestion, synthetic data generation, statistical evaluation, and privacy risk analysis.
- Implemented utility metrics such as Train-on-Synthetic-Test-on-Real (TSTR), statistical similarity measures (MSE, KL Divergence, correlation differences), and privacy metrics (Disclosure Risk, NNDR, Identifiability).
- Deployed the solution using Fast API and built interactive dashboards for interpretability.
- Achieved high utility, strong statistical fidelity, and minimized privacy risks, enabling safe data sharing and Privacy - compliant ML development.

EDUCATION AND CERTIFICATIONS

- **Post Graduate Programme in DataScience with Specialization in Gen AI** Jul 2025-Jan 2026
  GREAT LAKES EXECUTIVE LEARNING, Bengaluru, India
- **Bachelor of Engineering (B.E.) –**Information Science & Engineering Oct 2021
  Sri Siddhartha Institute of Technology, Tumkur
- **Data Science and Analytics–CloudyML** Oct 2023-Nov 2024
